Dear Russ,

This crazy Skolnick things is not much more damaging than mere plagiarism. His suit is an insanity, frivilous, spurious and certain to be tossed out of court with no ceremony at all, with consequent great hurt.

Please, immediately, write me exactly what you gave him and use your Chicago friends to get a xerox of the entire complaint, including attachments, WRSV, WCFL and any other tapes, any clips, releases, etc.

I'll probably now need a lawyer. Any suggestions.

Do you know the Ball kid Hoffman threw out of court, from the conspiracy staff? Remember, this Skolnick, who could now not be better an agent if he were one, was calling those defendants agents.

Rushing to get Lil to work. Please try and do these things immediately, for there is no telling what this insane ego will do next.

Best,
